Safe

Playgroup changes with society

- Our survey data reveals:
 - ~1/2 playgroup parents work
 - ~1/2 playgroup children also attend long day care
- Playgroups reflect the families who attend them
- Whilst some playgroups are for specific cohorts, other playgroups are for everyone
- Playgroups can occur anywhere: the bush, aged care facilities, schools, shopping centres, parks, church halls, community hubs, MCH centres, kindergartens

YOU are an important influencer; informing and encouraging parents to explore playgroup.

Transition project

Project aim: supporting you to do this.
