

Robyn Seymour

Deputy Secretary Network Planning

Head of Road Safety Victoria

In 2019, VicRoads and Public Transport Victoria came together with the Department of Transport to create a fully integrated transport department

## NETWORK OPERATORS

## RAIL ASSETS & TELECOMMUNICATIONS

## ROAD SAFETY & INSURANCE

## REGULATORS

## PORTS

## FISHERIES

# Network Planning addresses all users in all settings

People who walk

People who cycle and use public transport

People doing business and providing city services

People in personal motorised vehicles

# 2030 GOALS

Improve outcomes for vulnerable and unprotected road users who are involved in a crash

Reduce fatalities and serious injuries where speed is a contributing factor

Prepare the road network for the increasing connectivity and automation of vehicles

Ensure unprotected and vulnerable road users are supported by the road system, not impacted by it

Reduce fatalities and serious injuries where drivers engage in distracting behaviour

Optimise road safety data across government agencies to inform future action plans and strategies

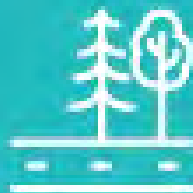

Reduce the occurrence of old and unsafe vehicles as a contributing factor to road trauma

Minimise or eliminate road safety hazards for those who work on or use the road for work

Reduce fatalities and serious injuries where alcohol and/or drugs are involved

Make remote and rural roads safe for all road users

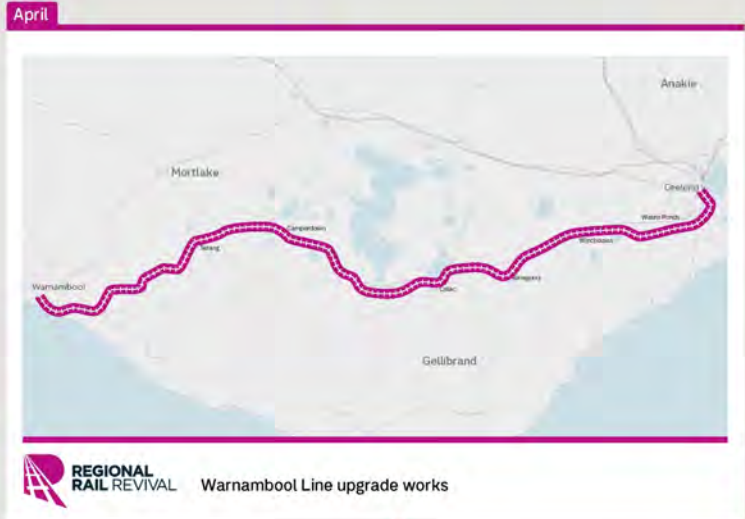

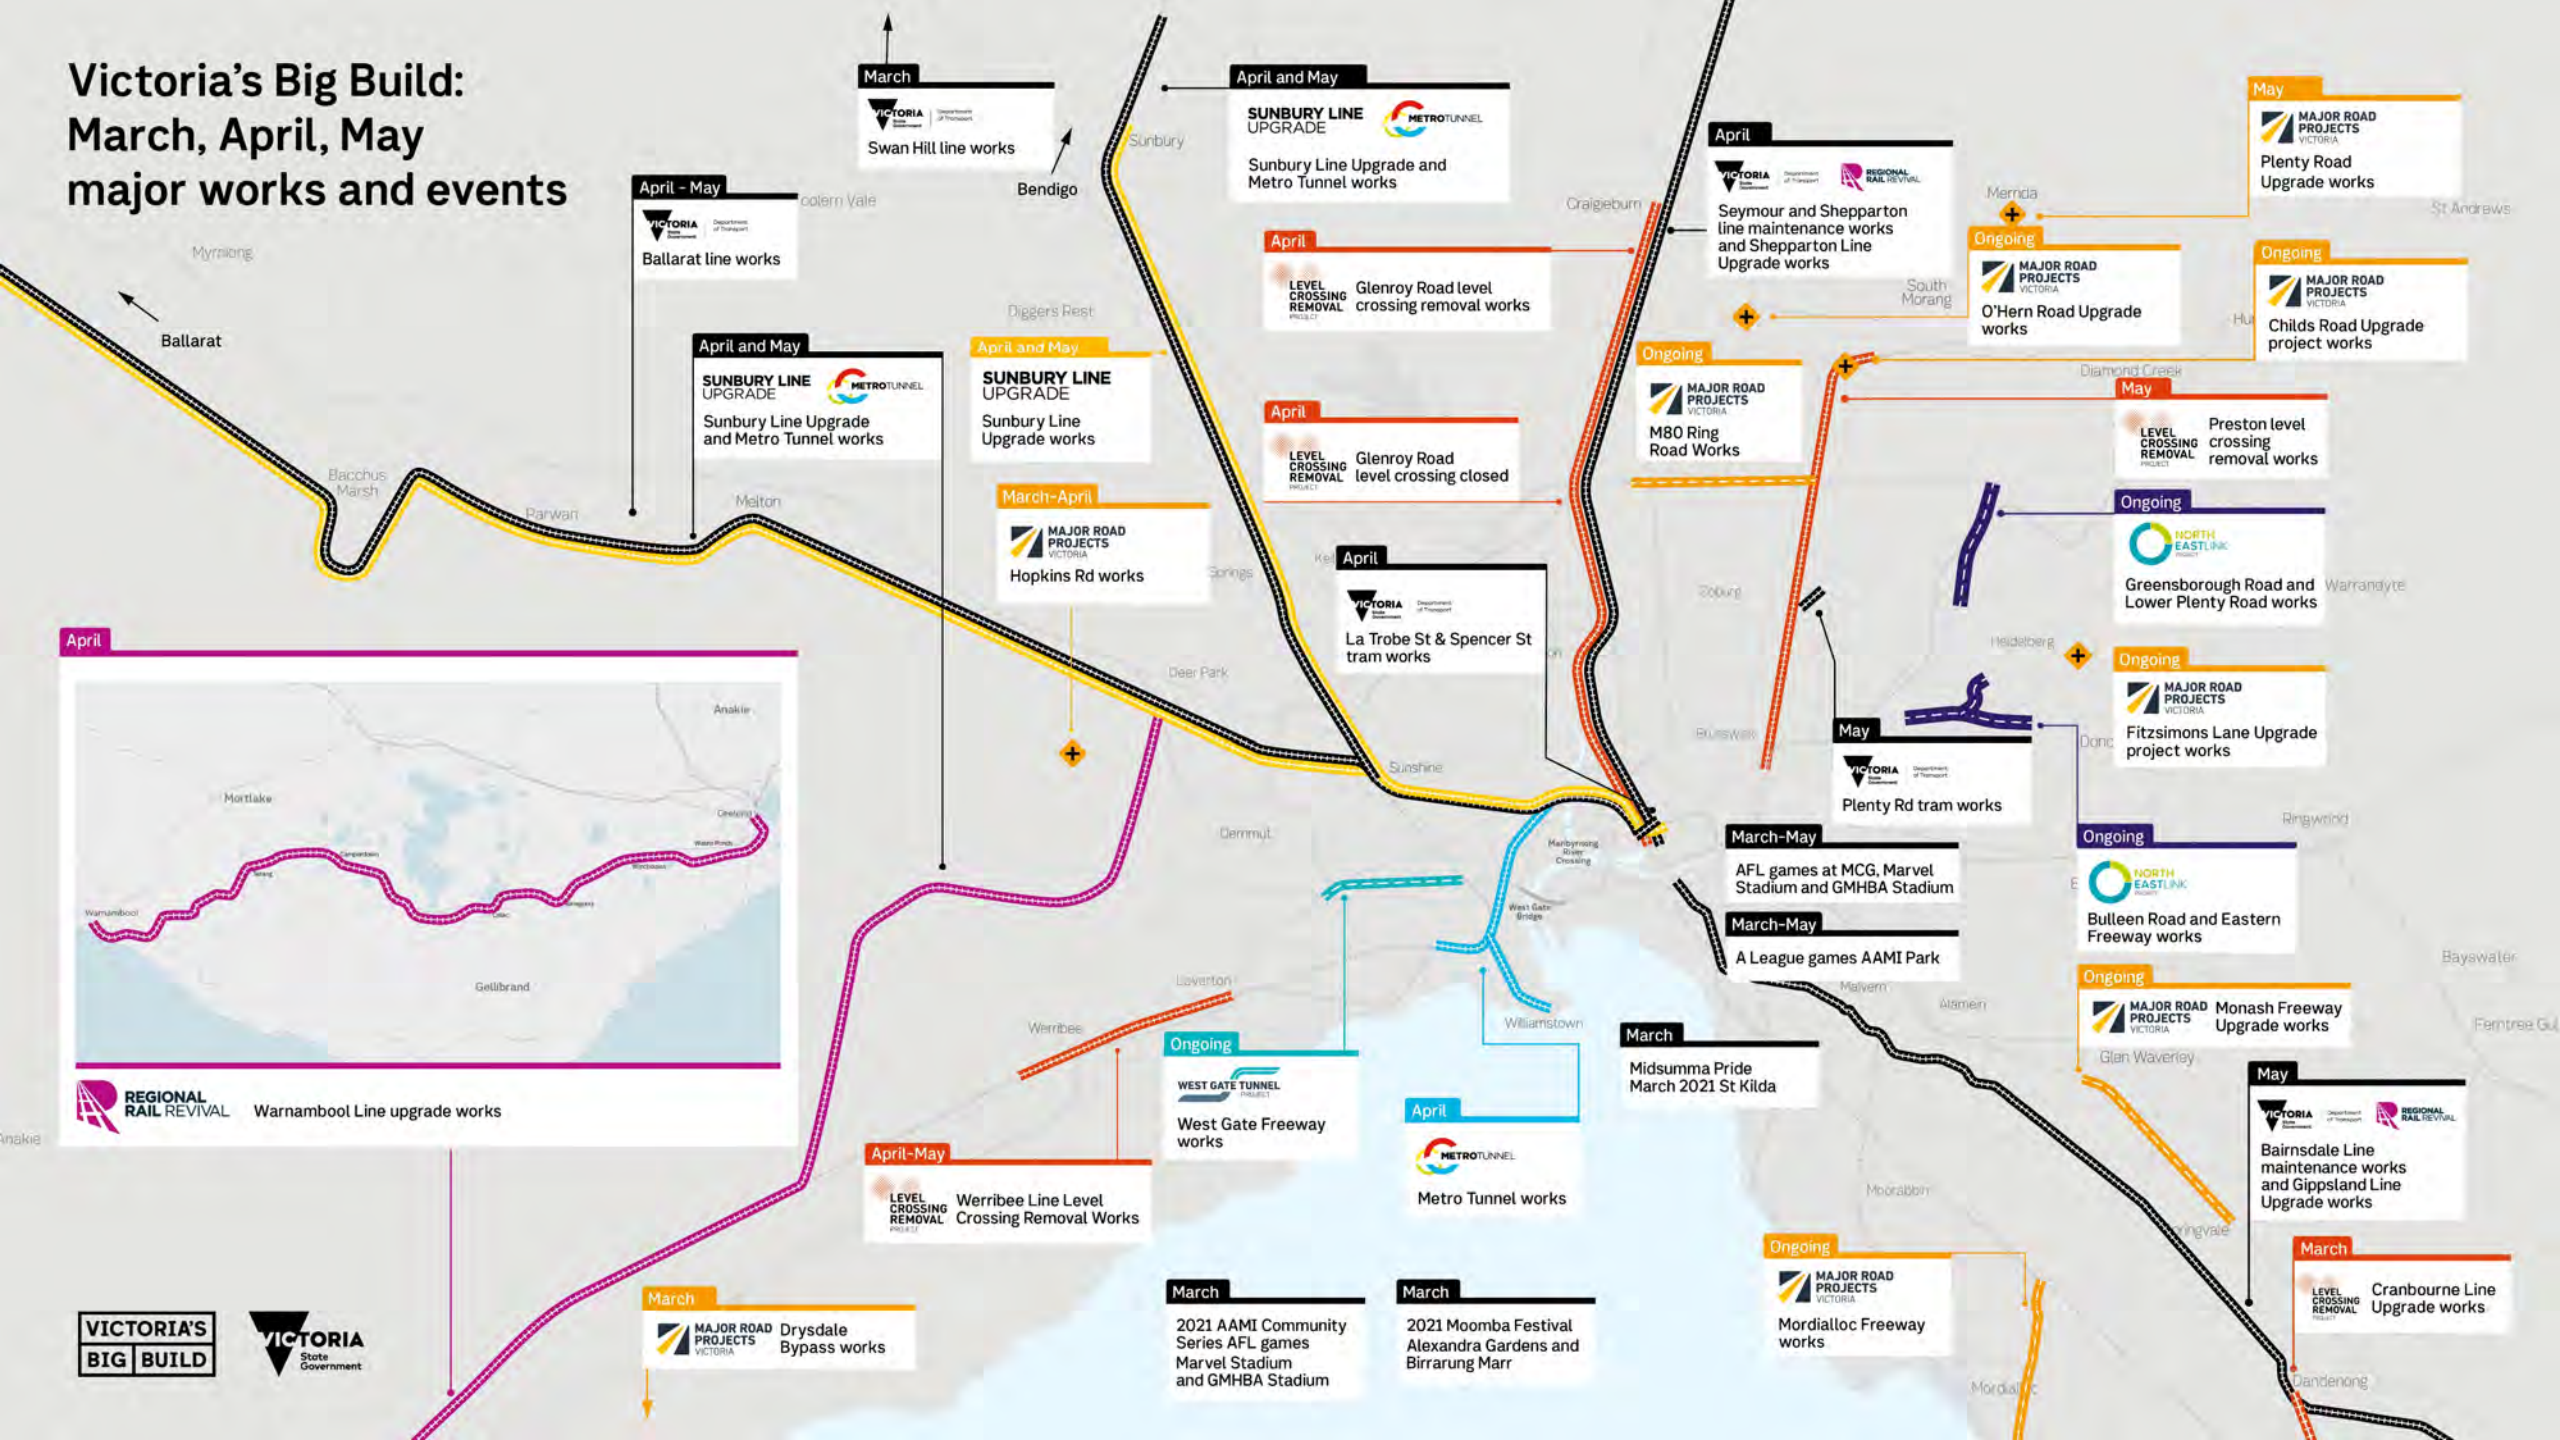

**Victorian online shopping grew by 170% during lockdown.**

# Victoria's Big Build: March, April, May major works and events

A photograph of a person riding a bicycle on a city street. The cyclist is wearing dark clothing and is positioned in the foreground, slightly to the right. The background shows a street with several cars, including a silver sedan, and buildings under a clear sky. The scene is brightly lit, suggesting daytime. There are decorative graphic elements: a large orange circle on the left side and a yellow triangle at the bottom left corner.

**Bicycles sold out  
across Victoria  
during lockdown.**

# Changing the way we plan

From planning for vehicles...

to planning for people movement...

to planning for living and prosperity

A photograph of two cyclists riding away from the camera on a bridge or elevated roadway during a golden sunset. The cyclist on the left is wearing a high-visibility yellow-green vest and a dark jacket. The cyclist on the right is shirtless and wearing a dark long-sleeved shirt and pants. The background shows a city skyline with various buildings and a prominent star-shaped monument. The sky is a mix of orange, yellow, and light blue. In the foreground, there are two large, overlapping geometric shapes: a light blue triangle pointing downwards and a yellow triangle pointing upwards, both partially overlapping the bottom edge of the image.

**Thank you**
