

Victorian Residential Efficiency Scorecard

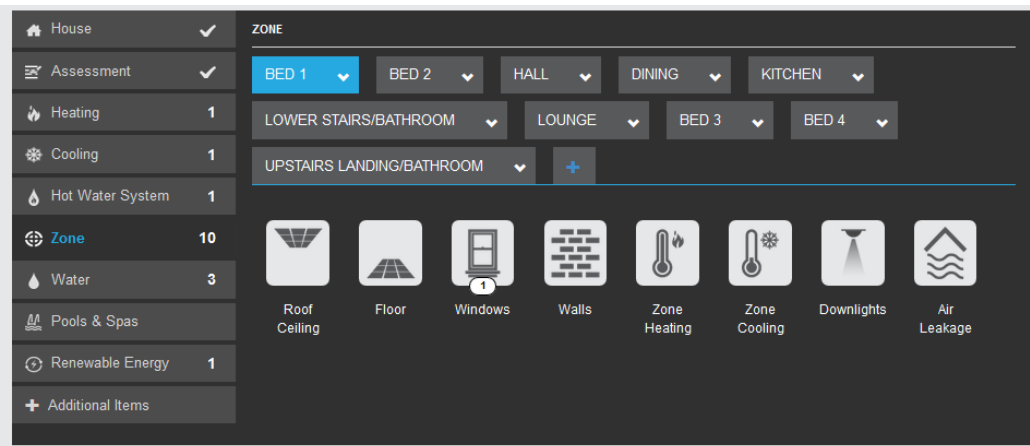

March 2019

The Victorian Residential Efficiency Scorecard (the Scorecard) is:

- A house energy rating program - released in 2017 across Victoria.
- Aimed at existing houses, but can be used on new builds, including plans.
- Delivered by accredited assessors only.
- Designed to provide the householders or property manager with tailored advice on energy performance and options for improvement.

- The assessor visits the home and enters data into the Scorecard tool.
- A certificate is produced once the information input is complete.
- The assessor explains the results and discusses options to improve the rating and/or comfort.
- The assessor can offer or refer the customer for upgrades or other services.

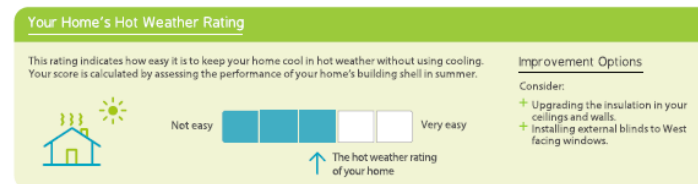

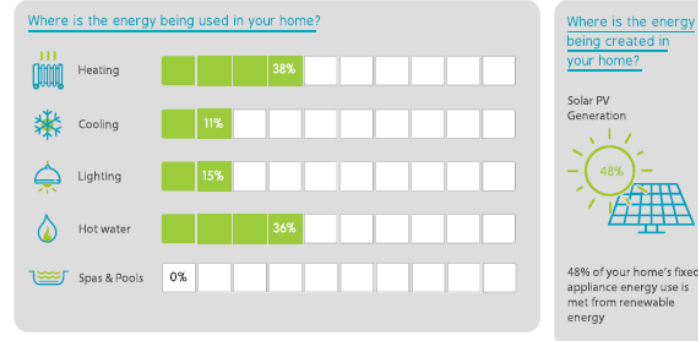

Scorecard fast facts

- Over 2,000 Scorecard assessments completed to February 2019
- 39 Scorecard assessors accredited
- Comprehensive quality assurance program
 - Evidence requirements
 - Telephone surveys
 - Audits

Victorian Residential Efficiency Scorecard
